

Chesterton Community Sports College ADMISSIONS ARRANGEMENTS FOR THE YEAR 2017 - 2018

The planned admission PAN is 140.

Parents have the right to express a preference for the school that they wish their child to attend. However, if the total number of preferences exceeds the Academy's Planned Admission Number, the following order of priority is used to allocate the available places. In accordance with legislation, children who have a statutory statement of special educational need or Education, Health and Care Plan that names Chesterton Community Sports College, must be admitted. This may reduce the amount of places available to other applicants:

1. Relevant children in care and children who ceased to be in care because they were adopted (or became subject to a residence order or special guardianship order).
2. Children who satisfy both of the following tests:

Test 1: the child is distinguished from the great majority of applicants either on their own medical grounds or by other exceptional circumstances. Medical grounds must be supported by a medical report (obtained by the applicant and provided at the point of application). This report must clearly justify, for health reasons only, why it is better for the child's health to attend the preferred school rather than any other school

Exceptional circumstances must relate to the choice of school and the individual child, i.e. the circumstances of the child, not the economic or social circumstances of the parent/carer. It should be supported by a professional report (obtained by the applicant and provided at the point of application), e.g. social worker. This report must clearly justify why it is better for the child to attend the preferred school rather than any other school

Test 2: the child would suffer hardship if they were unable to attend the preferred school

Hardship means severe suffering of any kind, not merely difficulty or inconvenience, which is likely to be experienced as a result of the child attending a different school. Applicants must provide detailed information about both the type and severity of any likely hardship at the time of application

3. Children who have an elder sibling in attendance at the school and who will still be attending the school at the proposed admission date; (For admission purposes a brother or sister is a child who lives at the same address and either: have one or both natural parents in common; are related by a parent's marriage; are adopted or fostered by a common parent or are unrelated children who live at the same address, whose parents live as partners)
4. Children living within the catchment area
5. Other children arranged in order of priority according to how near their home addresses are to the main gate of the school, determined by a straight-line measurement as calculated by the School. The School uses a Geographical Information System (GIS) to calculate home to school distances in miles. The measurement is calculated using Ordnance Survey (OS) data from an applicant's home address to the main front gate of the school. The coordinates of an applicant's home address are determined using the Local Land and Property Gazetteer (LLPG) and OS Address Point data.

The home address is considered to be the child's along with their parent/carers main and genuine principal place of residence at the time of the allocation of places i.e. where they are normally and regularly living. If a child is resident with friends or relatives (for reasons other than legal guardianship) the friends or relative's address will not be considered for allocation purposes.

Waiting lists for admission will remain open until the end of the Autumn Term of the year of admission and then will be discarded. The waiting list will be kept in admission criteria order. This means that a child's position on the waiting list could go up or down.

Inclusion of a child's name on the waiting list does not mean that a place will eventually become available.

Admissions outside the normal admission round for secondary transfer at 11 years old should be made directly to the Academy.

Admission Outside of the Normal Age Group - Parents may seek to apply for their child's admission to school outside of their normal age group, for example if the child is exceptionally gifted and talented or has experienced problems such as ill health.

These parents will need to make an application alongside children applying at the normal age which should explain why it is in the child's best interest to be admitted outside of their normal age which may include information such as professional evidence as to why this is the case and why an exception should be made in the case of the child. A decision as to whether this is an appropriate course of action will be made by the school Directors who will take into account the circumstances of the case and views of the Executive Headteacher and Headteacher.

Parents do not have the right to insist that their child is admitted to a particular year group.

If an applicant is refused, there is a statutory right to appeal to the Academy Trust. An independent appeal panel will hear the appeal. Further details of the appeal procedure are available upon request.
