Jobs

Shop Assistant: My first job was in a little shop called 'Card Crazy'. It was my job to serve the customers and tidy the cards but in all honesty, I spent most of my time doing nothing!

Bar Manager: Whilst at university, I took my personal licence course and became supervisor in a bar before being promoted to manager of the pub next door.

Customer Services Agent: Finally, before starting my teacher training I worked at FedEx in the customer services department. You'd never imagine where some of the parcels ended up!

When I was younger, I wanted to be...

...a hairdresser! I always wanted to work in hair and beauty and even did a number of tasters courses whilst I was still at school.
