

Mrs I Rutter

Schooling

I went to Bedford High School and took History, Geography, French and Spanish for my options at GCSE, then took French, Geography, Spanish and Business Studies for A-Level.

I loved school, but did quite often get told off for talking too much...

Further Education and Qualifications

My degree is in French and Marketing from Lancaster University. I absolutely loved every minute, especially my 3rd year where I studied Business at a University in Montreal, Canada.

Jobs

I did a graduate programme in Marketing but didn't really enjoy it, so I went travelling in Asia and Australia. When I came back, I ended up working for 2 different environmental charities, managing regeneration projects. I loved that work, but always knew I wanted to be a teacher after I'd got some life experience, so I retrained as an adult and...here I am.

When I was younger, I wanted to be ...

Where to start? The main things I wanted to do were be a backing singer in a band, or be an international 3-day eventer and ride horses all day.

As I got older, I realised I wanted to use my languages and help people, so I have got my wish 😊

Interests and hobbies

I love gardening – especially growing my own vegetables. I am quite involved in our village WI, and enjoy doing activities in the community. I also love music, especially guitar bands, and I go to lots of concerts.
