Betsy Millward 7SB

Always on time and well presented. Has most beautiful manners and is always willing to help.

Zachary Wade 7MK

Always beautifully presented, has the most beautiful manners and is always ready to help.

Y8

Zach Lightfoot 8DG

Zach has had a really positive week. He has also shown a great deal of maturity and I have been impressed with this. Great work, Zach! Keep it up!

Ocean Paige Burnett 8LH

A superb pupil who demonstrates the exact qualities that I want every pupil to have. Organised, well mannered, works hard and gets involved in extra curricular activities. So many staff have good things to say about Ocean! Well done!

Y9

Ryan Murray 9MH

Really impressed with Ryan's hard work, keep it up Ryan!

Caitlin Heathcote 9YM

Consistent hard work and focus across all subject areas. Keep it up Caitlin!

Y10

Evie Dykeman 10CK & Lennon Booth 10KDR

Putting 100% effort in in their exams and coming out with grades that reflect that! Well done!

Y11

Finley Smith 11HM

Fin has consistently worked to the best of his ability throughout all of his exams. He is enthusiastic, focused and willing to face any challenge presented to him. I am so proud of him!

Kiera McLaughlin 11P

Kiera has shown real strength and determination this week. She is so resilient and never gives up, even when things get tough. I hope she realises just how amazing she is.

Edit 3

Original image *First step of editing* *Second step of editing* *Final product*

To edit this image, I used the photo app on my iPad to do my first step of editing. I increased the brightness so the shadows are shown when I add the filter. I increased the vibrancy and saturation because I wanted the colours to pop when I go onto Instagram and edit this image further.

The Heinsohn added a filter called 'Maroonize D&T' to make the print effect that Georgia uses in her images to make the images look painted and 3D. However, I also added a filter called 'NO painting D&T' because I wanted to edit this image further and interpret Georgia's work in my own way and see this image to make it.

Edit 5

Original image *First step of editing* *Second step of editing* *Final product*

To edit this image, I used the photo app on my iPad to do my first step of editing. I increased the definition and sharpness to make the definition sharp and has definition so that the rest of the image is clear and has detail. Also, when I add the filter the definition will still be there. I increased the vibrancy and saturation so that the image is colorful and bright and adds the filter when I add them.

The Heinsohn added 2 filters but used manipulation to separate the different parts of the image. I used the oil painting section in Heinsohn to get the effect that this image has been painted. I did this to interpret Georgia's work.

Edit 4

Original image *First step of editing* *Second step of editing* *Final product*

To edit this image, I used the photo app on my iPad to do the first step of editing. I increased the brightness so that the shadows are shown when I add the filter the shadows will show. I also increased the saturation and vibrancy so that the colors are more vibrant and vibrant. I also increased the sharpness so that the definition and details of this image is shown.

The Heinsohn added filter called 'Maroonize D&T' because I wanted to add the effect that it has been painted instead of just being edited without it. Looking at Georgia's work that can interpret and give it the effect that it has been painted. The Georgia does.

 CCSC are very proud
 of him.

Community Day has been wonderful. Miss Owen took a group of RMS Leaders to the Salvation Army in Chesterton where they helped wrap presents and then serve drinks and mince pies to the guests of Aspire Housing who were holding a special event attended by many organisations and charities as well as the local Mayor.
 Pippa B and Lois W also sang 'Oh Holy Night' and 'All I want for Christmas is you,' and received a rapturous applause and lots of lovely comments. All the pupils did us proud as a school and had a great day.

What an evening Miss Owen and Mrs Hitchen have had. They have been to watch the amazing BTEC students at Jill Clewes Academy perform their Christmas show, 'Sparkle Jolly.' The show was incredible and so professional. We were particularly proud of our former students, Ruby, Lucy and Finn who were all outstanding. It was so lovely at the end of the show to catch up with them and our former student who also studied at the Academy, Fran along with current student Keelan who will be starting there next September. Fran is also making us proud as she's gone on to university to study early years child development.
 What an inspiring group with careers week coming up!

Mrs Hitchen and Miss Owen took a group of Performing Arts Students to [Newcastle College](#) this afternoon to watch their production of Sleeping Beauty. It was a fantastically funny pantomime that the pupils thoroughly enjoyed. It was also lovely to see our former pupil, Oliver G, performing and doing us all proud.

Sports Journalism Session 3 with [Higher Horizons+](#)
 higherhorizons. Today pupils prepared for their first assignment as sports journalists, where they will be interviewing @newcastleownfc players post-match in January. In preparation for this, pupils watched some famous post-match interviews include Steven Gerrard and Michael Olise. They were then given match scenarios, where they had to think of the questions they would ask a manager in a post-match interview after a victory and a defeat.

Miss Owen and Mrs Cummins-Bloor took a group of Year 9 and 10 students to Chester Cathedral today. The pupils participated in a tour of the Cathedral where they learnt about key Christian Practices, such as prayer, Festivals and Holy Communion as well as enjoying all the beautifully decorated Christmas trees inside the Cathedral. They also participated in a practical workshop where they considered Christian beliefs about creation and designed and made their own beautiful stained glass windows. We then had a small amount of time to enjoy the Christmas Market which has certainly left everybody feeling festive. Behaviour was excellent and they were all a credit to the school

Tie Of The Week!!

On Monday 27th November Mr Salt took a group of year 9s to Keele university to take part in a leadership development day. The pupils took part in many activities which focussed on general leadership skills including; logistics, fixture management and problem solving. The pupils had a great day and represented the school to the highest standard. Well done to all pupils!

Astro Rules

Only pupils playing football should be on the astro – if not playing football, pupils must be **outside the astro fence**.

Please be aware that if there are too many pupils on a pitch, staff will stop play and reduce the numbers by moving some to another pitch.

Before footballs are handed out, the goals should be placed **on the lines** for each pitch and the **nets pulled across**.

Rules for games on the astro:

- Physical contact during the games should be minimal – no slide tackling, shoulder barging, pushing, etc.
- Games should be played to the lines and the dividing net and games should restart with goal, corner kicks and throw ins
- There should be no food eaten on the astro and pupils should not leave litter
- The whistle to end the game should be blown five minutes before the end of lunchtime and pupils should stop the game and leave the astro **immediately**
- There should be no:
 - football chanting
 - play fighting

Independent Learning Sessions

How should I use my time?

Learn/test your Crucial Knowledge

- Pick a subject, then use the Crucial Knowledge resources to test yourself and learn anything you don't know
- You can find all the resources here:
<https://www.ccsc.staffs.sch.uk/index.php/2013-09-25-09-25-35/all-files/crucial-knowledge>

Complete all your **Crucial Knowledge** quizzes

- Work through all set Assignments in Teams
- Work through Educake, Kahoot, etc. quizzes set by your teachers

Make a 'to-do list'

- In OneNote (top of the page)
- Using 'Notes' on your iPad
- Or just on paper!

Read a book

- Improving your reading skills will help you in all subjects
- Find lots of books on the Sora app

Work through **extra subject resources**

- Go to your Teams classes
- Work through the extra resources that your teacher has put in your class Teams
- These resources will help to **extend your subject knowledge**

Organise/tidy your notes

- Organise and tidy up work in your OneNote notebooks
- Group pages together so your notes are in order
- Turn pages into subgroups so that topics are together

Make corrections and improvements

- Look at teacher comments in your exercise books or Class Notebooks
- See how you can improve previous work and have another go at it
- Look at any quizzes that your teachers have returned. Make notes on anything you got wrong and learn

Independent online revision

- All subjects: <http://www.bbc.co.uk/bitesize>

DECEMBER WRITING COMPETITION 2023

Because it's the season of giving, we're going to give you an extra choice of what to write this festive season!

You have the choice of writing an acrostic poem that's inspired by the Christmas cheer.

Or you can write a dystopian story in which Christmas doesn't exist anymore.

For example:
Sound numbing,
Nature's blanket,
O' how the children love it,
White as a Christmas Night.

Or

Christmas. That was a word that had long been forgotten, many moons ago, by many people. But not all. There was a collective of people who still secretly celebrated the ancient celebration. These people opposed the government's strict regime of no festivities, in order to feed and maintain the government's war machine, now sowing siege on the rest of the galaxy. That was what humanity had become. Distilled down to a ravenous, all consuming obsession to survive by invading and extinguishing all threatening species. Yet hope survived.

And it was tonight, on Christmas Eve, that the collective was to meet again...

Ice price: You can have just your head or brain frozen for around £8,500.

Is it really possible? People have long hoped to find immortality through cryonics. Now two worms from the Ice Age have suddenly made the ambition look closer to reality.

"It's not a miracle," said Dr Philipp Schiffer, "but it's kind of super-fascinating." A group of scientists in Russia had been examining a piece of soil from the Siberian **permafrost**. In it were two little roundworms which, when it thawed, came back to life. The scientists then set about finding out how old the soil was through **carbon dating**. The result: 46,000 years.

The worms had been able to shut down their bodies through a process called anabiosis, which brings the **metabolism** to a halt so that the creature concerned goes into a deep sleep. Though some creatures, such as frogs, were already known to be capable of this, the limit was thought to be 40 years.

above 0C and the blood is replaced with a solution to preserve the organs.

Another solution is injected to stop ice crystals forming. Then the body is cooled to -130C. Finally, it is stored in a tank of liquid nitrogen at -196C.

The idea is to keep it there until science has advanced sufficiently to repair cells and tissues damaged during the freezing process and cure the body of whatever the person died from.

But there is an intense debate about whether cryonics should be seen as a respectable science. Writing in *MIT Technology Review*, Professor Michael Hendrick describes its promises as "snake oil".

Every brain is so complex and so different, he explains, that restoring the connections within one — or reproducing them via a computer — would be incredibly difficult. The technology to do so does not yet exist "even in principle".

Even if it did, the result would be "a new person who is like you but whose conscious experience you don't have access to".

Another leading scientist, Professor Martin Rees, calls the claims of cryonics ridiculous:¹ "In my view it is most unlikely that this is feasible — and even if it is, it should be discouraged."

For those hoping to live for ever through **cryonics**, the discovery was hugely encouraging. If worms could be preserved for so long and then revived, surely humans could too.

Cryonics, however, is far from simple. And Valeriya Udalova, the head of a Russian company which claims to be caring for 94 frozen bodies, sounds a note of caution: "I don't think that human metabolism can be radically restructured so that we also go into anabiosis like animals. It's probably easier to create new, artificial bodies."

The cryonics process has to begin within 15 minutes of the heart stopping. First the body is packed in ice and injected with chemicals to stop the blood from clotting. It is then cooled to just

But some of those within the industry claim that they are being unfairly **stigmatised**. "For scientists who would like to discuss it open-mindedly, it tends to significantly hurt their career," says Dr Ramón Risco:² "in fact can potentially even get them kicked out of their scientific societies."

Unless people are afraid of the truth, he adds, "Why would you put barriers up?"

Is it really possible?

Chilling idea

Yes: Science has made advances in recent decades that earlier generations could not have dreamed of. Now that the cryonics process is established there is every chance that problems will be ironed out.

No: There is no evidence whatsoever that cryonics could work. Organs like the heart have never been successfully frozen and thawed. It is even less likely a whole body could be without serious damage.

Or... Even if people could be brought back to life, it would be a terrible experience. They would find themselves in a completely unfamiliar world without friends or family to support them.

MFL Department

El Día de los Muertos competition

Well done and thank you to the following students for their fantastic entries and for embracing Hispanic Culture. Our language leaders found it difficult to pick a winner, as we had some lovely work entered.

Our winning entries are from:

Mia Gould-Smith yr 8
Megan Cartwright yr 8

There are also runner-up prizes for the following students:

Scarlett-Mia Wainwright yr 8
Phoebe Arrowsmith yr 7
Taylor McCutcheon yr 7
Brooke Kirby yr 8
Lucy Taylor yr 10
Lilly-Rose Windsor yr 8

Come to room 4 in the MFL department next Wednesday lunchtime to collect your prizes from Mrs Knight. Well done everyone!

Miss Moscati's Stars of the Week
Thaleia Stanier Filip and Aafreen Ahmed for excellent effort in their Writing assessment.

BRAYO

Mr Whitehead's Star of the Week
Trinity Mudryj for making great progress in Italian and working hard.

Mrs Knight's Star of the Week
Logan Wilton, for the excellent standard and accuracy of his written work

Mrs Orton's Star of the Week
Daphne Spangler for outstanding effort in her Spanish speaking exam. Really proud of her progress and attitude to learning. Keep up the good work!

Mrs Rutter's Star of the Week
Leah Johnson for an outstanding piece of independent writing in her book

Science Book of the Week

Available now on the Sora App!

The title is a bit controversial!
This is an entertaining book that debunks popular science myths. Hair does not continue to grow after we die!
There are not only 7 colours in the rainbow!
And lots more...

Read this if you like annoying your science teacher!

Entry Requirements

Your future. Your way.

A Level & A+ Programmes

Sixth Form Academic Route (Level 3)

Quick overview:

- Choose 3 subjects (or 2 & 1 A+)
- Study each subject individually
- Study 5 days per week (15 hours)
- Primarily exam based
- Demanding entry requirements
5 GCSEs at Grade 5-9 (Some A Levels require a Grade 6)
- You must have **GCSE English & Maths at Grade 5 or above**

T-Levels

Sixth Form T-Level Route (Level 3)

Quick overview:

- Choose 1 subject
- Assessed industry placement
• 80% classroom, 20% work
- Equivalent to 3 A Levels
- Demanding entry requirements
5 GCSEs at Grade 5-9
- You must have **GCSE English & Maths at Grade 5 or above**

Vocational Programmes

Sixth Form Vocational Route (Level 3)

Quick overview:

- Choose 1 subject
- Subject broken into units
- Study 3-5 days per week (14-15 hours)
- Primarily coursework based
- Equivalent to 3 A Levels (Level 3 BTEC)
- Entry requirements
5 GCSEs at Grade 4-9
Some subjects require additional GCSEs i.e. Engineering & Sport
- You must have **GCSE English OR Maths at Grade 4 or above**

Apprenticeships

Available at Levels 2 to 5

Quick overview:

- If you know exactly what career you want
- Spend 4 days at work, 1 day in college
- Get paid to learn
- Study up to degree level*
- 2-4 GCSEs at Grade 4-9
Most Employers prefer 5 GCSEs at Grade 5 or above
- Employers may ask for specific subjects
- You must have **GCSE English OR Maths at Grade 4 or above**

Progression & Skills Pathways

Level 2, Level 1 & Entry Level

Quick overview:

- If you're not quite ready to join a Level 3 programme, our vocational Progression Pathways allow you to study at Entry Level, Level 1 or Level 2 and will prepare you to progress onto a higher level.
- Alternatively, if you want skills based training in areas such as hairdressing, beauty and construction, you'll start your journey on a Level 1 Skills Pathway, before progressing to higher levels.
- GCSE Maths & English**
- *If you haven't yet achieved grades 9-4 in these important subjects, please contact English services via our open Facebook and you'll receive qualifications alongside your next course.

Social worker

A great goal to pursue during your career as a social worker is to get involved with local legislation and administration to create and update programs that can assist the individuals and groups you represent in terms of social and economic growth. Social work is primarily concerned with supporting, helping and empowering people in a variety of situations and settings. It is also about working in solidarity with socially excluded people and groups in meeting the challenges created by social inequalities and adversity. Apart from community care social workers, other social workers with more strictly defined areas of responsibility include: medical social workers, psychiatric social workers, housing welfare officers, probation and welfare officer, social workers in industry or welfare workers. Social workers are trained to fully assess people's needs. Social workers place emphasis on the strengths, abilities and natural coping strategies of service users and their families. The social workers main role is to help empower service users. An undergraduate in social policy or social science is a prerequisite for entering social work education in most programmes in Ireland. Some programmes allow for equivalent qualification where there is a majority component in these areas such as some law degrees, social care, or community development for example.

New Trick Every Week!

Magic trick of the week – try this!!!

11. The 'Mind Reader' trick!

You will need a pack or 'deck' of playing cards for this trick. Before you go in front of your audience, count out 25 cards. Put these cards at the top of your pile and keep them slightly twisted, so you know where the middle is.

1. Cut the cards at the split so there are 25 cards in each pile.
2. Place the top cards face down on the table and ask your helper to choose a card from the cards left in your hand.
3. Have them show the card to the rest of the audience and memorize the card.
4. Tell your helper to put their card back onto the pile in your hand.
5. Pick up the pile from the table and place it on top of the pile in your hand.
6. Now, slowly turn over the cards one by one, counting in your head as you go.
7. Card number 26 will be your helper's card. When you turn it over, reveal that your magic senses tell you this is their card.

The Joy of Christmas

(Week beginning 18th December 2023)

The Joy of Christmas: The origins of the Christmas Tree and other Christmas traditions

Over 2000 years ago Celtic priests (druids) observed the festival of Yule (known as Alban Arthan) at the time of Winter solstice. They gathered mistletoe from oak trees, in an attempt to ward off evil spirits and grant them good luck. Amongst Celtic peoples (including Germanic tribes) branches of evergreen fir trees were used to decorate their homes and brighten their spirits. Nordic peoples burnt a Yule log to give light in their homes. The Romans used evergreen to decorate their temples at the festival of Saturnalia during December, in honour of the God, Saturn. Many of Saturnalia's traditions, which celebrate the hope of harvest and a bright future during the dark winter, were incorporated into later celebrations of Christmas and the New Year.

Besides the Christmas tree there are pagan origins for other Christmas traditions: a kiss under the mistletoe, Santa Claus and his reindeer and Christmas Day itself. With the rise of Christianity, the pagan aspects of the holiday season became obscured and, in some cases, completely forgotten. The very name for Christmas came into English shortly after the Norman conquest, and grew out of the festival then referred to as 'Christ's mass': the Christian tradition of taking holy communion/ mass on the saint's day dedicated to Jesus Christ. Although the date and month of the year when Jesus was born are not specified in the Bible and cannot be proven.

Prince Albert, Queen Victoria's consort, is usually credited with having introduced the Christmas tree into England in 1840. However, it was actually 'good Queen Charlotte', the German wife of George III, who set up the first known tree at Queen's Lodge, Windsor, in December 1800. They are now present in nearly every UK home.

According to the latest census the UK is a minority Christian country (more people don't identify as Christian). The idea of a celebration of God(s) has arguably been replaced by the pleasures of consumerism and excess. **Perhaps the modern Joy of Christmas should be more that, during a holiday after the longest night of the year, we enjoy and appreciate being with those we love and look forward to a new year and it's opportunities.**

	You don't need to believe in Yule, the Scandinavian fertility god, to enjoy the tradition of Yuletide carols and greetings.	
	You don't need to be a Druid to enjoy the tradition of hopping for a kiss under the mistletoe.	
	You don't need to believe in the god Saturn to enjoy the tradition of decorating a Saturnalia tree in your home.	
	You don't need to believe in Thor, Odin, or St. Nicholas to enjoy the tradition of a visitor bringing gifts at night.	
	You don't need to believe in Sleigher, Odin's flying 8-legged horse, to enjoy the tradition of listening for the sound of hooves on your roof top.	
	You don't need to believe in Mithras to enjoy the tradition of celebrating the sun's rebirth on December 25th.	
	And you don't need to believe in Jesus Christ to enjoy the tradition of renaming this ancient holiday to Christ's Mass.
