

Chesterton Community Sports College

'Be The Best You Can Be'

English Department Information

Chesterton Community Sports College is a vibrant and inclusive high school committed to providing a stimulating and supportive learning environment. Our English department is renowned for its hardworking, creative, and collaborative approach, with a steadfast commitment to achieving excellent academic results. We take pride in fostering a passion for literature, language, and communication skills that will empower our students for a lifetime.

The heart of Chesterton Community Sports College can be found within the confines of the English department. It is one of the largest departments in the school, with eight English specialists, furthered with the addition of a full-time librarian. Oversubscription to the school is a delightful consequence of the school's success, and with this comes the need for a new member to join our passionate, personable and proficient department. We are seeking an enthusiastic and dedicated English Teacher to join our dynamic team. The successful candidate will play a pivotal role in shaping the educational experience of our students, fostering a love for English and ensuring high academic standards. The English department at CCSC is a cohesive and forward-thinking team that values creativity, innovation, and collaboration.

The English department currently has seven classrooms and a dedicated staff work space. Each classroom is equipped with 'Apple TV', which will link to your personal MacBook and iPad. In addition to this, all pupils enjoy the use of their own iPad, which can be incorporated into your lesson planning. It goes without saying that the jewel of the English department is found in our well-resourced library. The room is spacious and fully equipped with books for all ages and abilities. Some students utilise this space for many extra-curricular activities, whereas others enjoy it to foster their love of books. It is in this noteworthy space, that the passion for reading and writing, through the vehicle of English teaching, can truly be seen. Alongside our library, all students have access to SORA on their iPads. This online library resource offers a plethora of e-books and audiobooks, supplementing the wealth of provisions already accessible in the library.
